VALUATION

The Income Approach utilizes the direct capitalization method, which converts expected income into an indicator of market value. Please refer to rent comparables and other relevant market infomation contained within this packet.

The Sales Comparison Approach uses the sales of properties similar to the subject to arrive at an estimate of value. Adjustments to the sale price of the comparables were made where the characteristics of the comparables differed from those of the subject. Adequate market information was available to arrive at a reasonable estimate of value, and the value indicated by the Sales Comparison Approach is therefore considered to be reliable.

The results indicated by the value approaches are summarized as follows:

Income Approach:

$3,635,000

Sales Comparison Approach:

$3,676,000

CONCLUSION

The Assessor's Office has given careful consideration to the approaches to the value that have been used in this appraisal and has determined a reasonable and reliable indication of fair market value for the subject property. Therefore, the Assessor's Office recommends a reduction for the 2023/2024 tax year. The sale price is accepted and enrolled as the new base year value.
