RIVERSIDE COUNTY, CALIFORNIA

APPRAISAL NARRATIVE

INTRODUCTION

This is a Proposition 8 appeal contesting the roll value for the 2025/2026 tax assessment year. The effective date of this appraisal is January, 01, 2025. As required by Section 1 of Article XIII of the California Constitution, Revenue and Taxation sections 110 and 110.1, and Property Tax Rule 2, the interest being appraised is fee simple, unencumbered.

SUBJECT PROPERTY

The subject property is a 48,336 sqft Light Industrial Flex building built in 1990 that is located at 2395 Railroad St in Corona, CA. The nearest major intersection is Railroad St & Monica Cir. The subject property is in average condition. The subject property was last sold on 3/3/2022 for $15,300,000, or $317/Sq. Ft.

As of the date of valuation, the property was occupied by GTR Solutions, Inc., a company which specializes in IT asset disposition and electronic recycling.

VALUATION

The Income Approach utilizes the direct capitalization method, which converts expected income into an indicator of market value. Please refer to rent comparables and other relevant market infomation contained within this packet.

The Sales Comparison Approach uses the sales of properties similar to the subject to arrive at an estimate of value. Adjustments to the sale price of the comparables were made where the characteristics of the comparables differed from those of the subject. Adequate market information was available to arrive at a reasonable estimate of value, and the value indicated by the Sales Comparison Approach is therefore considered to be reliable.

The results indicated by the value approaches are summarized as follows:

Income Approach:

$14,956,000

Sales Comparison Approach:

$15,710,000

CONCLUSION

The Assessor's Office has given careful consideration to the approaches to the value that have been used in this appraisal and has determined a reasonable and reliable indication of fair market value for the subject property. Therefore, the Assessor's Office recommends a reduction for the 2025/2026 tax year.

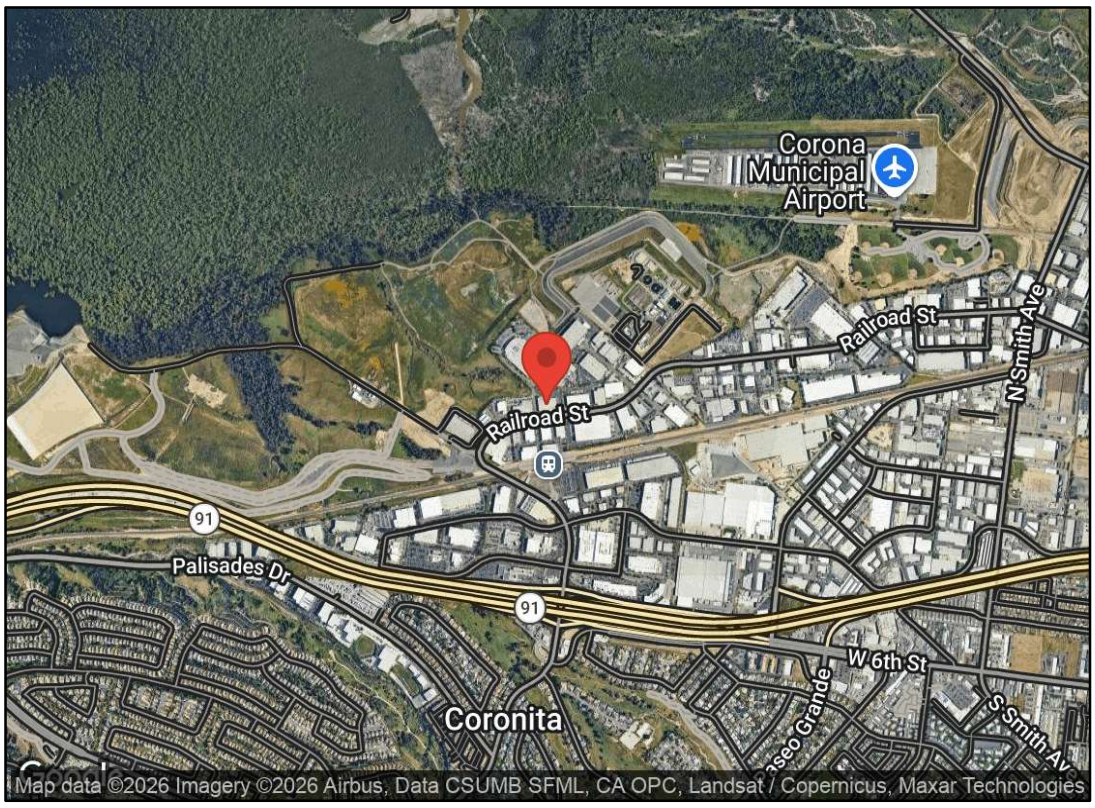

CONCLUDED VALUE = $15,700,000

Submitted by: Kyle Edmonds - Appraiser
Commercial Valuation Division - Riverside Commercial District Office

Valuation - Actual Income Capitalization

The rent used is the actual subject average contract rent of $1.44/Sqft/Month.

Vacancy and collection lossess are 0% as the property is fully leased. Income potential is estimated on a triple net basis. The 0% of EGI are the actual expenses of the subject property (See income statement within this packet).

The Overall Rate is based on similar property sales to the subject. The OAR conclusion as of the lien date is 5.25%, and there is no added tax component rent used is NNN.

The following reconstructed operating statement is based on the information above.

Potential Gross Income	48,336 sf	@ $1.44 /sf/mo	$835,246
Less Vacancy & Collection Losses		@ 0%	$0
Effective Gross Income			$835,246
Less Expenses		@ 0.00%	$0
Net Operating Income			$835,246
Capitalized		@ 5.25%	$15,909,449
Lease Up			$0
Capitalized Value			**$15,909,449**

Market Value Conclusion Based on Capitalized Income Potential: **$15,909,000**

Valuation - Income Capitalization Approach

The Rental Comparables included in this packet are used to determine market rent for the subject property as of the 01/01/2025 effective date.

After considering the attached lease comparables for time, age, condition, and location, the market rent for the subject property is estimated at $1.50 per square foot on a NNN basis.

Vacancy and collection losses are estimated at 5% of PGI. Income potential is estimated on a NNN rent basis. Therefore expenses are estimated at 5% of EGI.

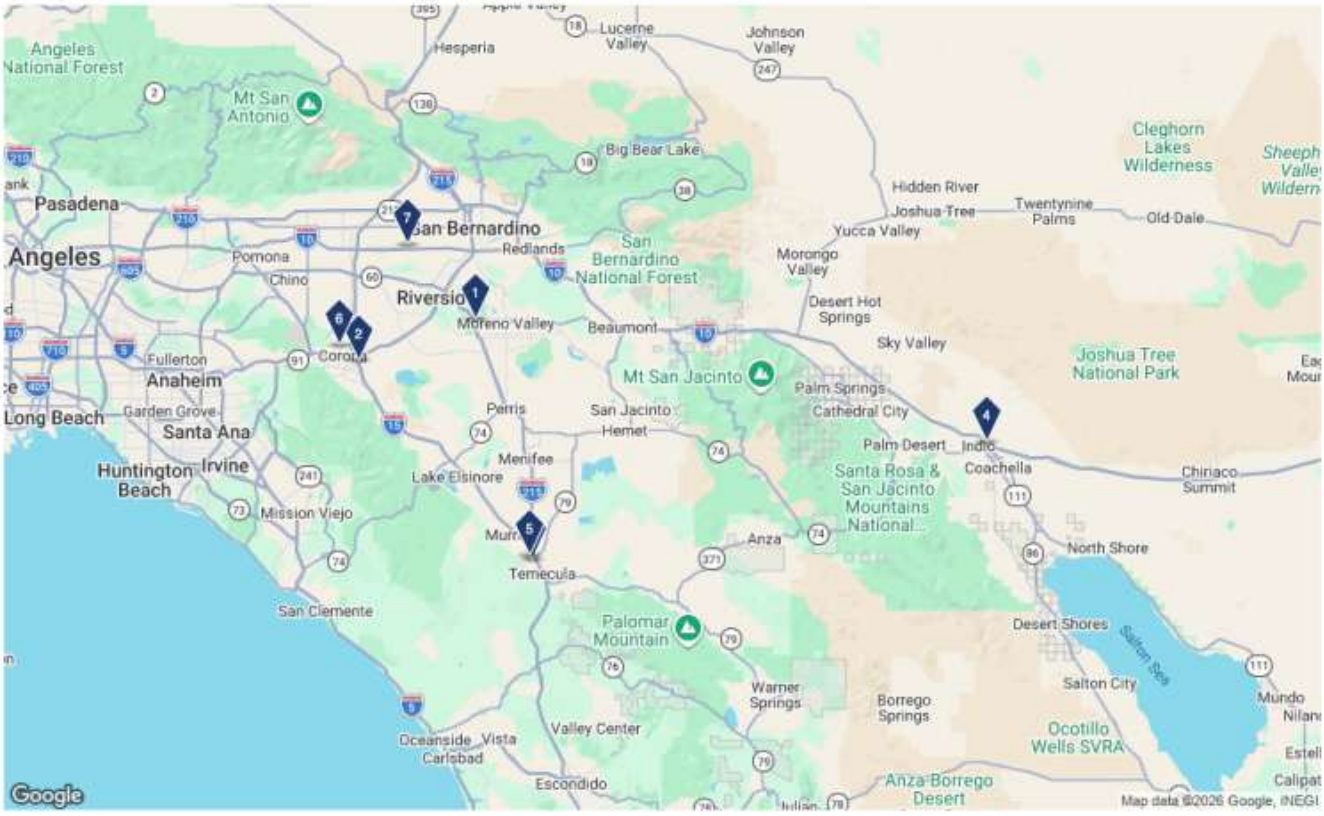

The capitalization rate of 5.25% is based upon sales of properties comparable to the subject. The local tax rate is included in the capitalization rate for all rent types except for triple net.

The following reconstructed operating statement is based on the information previously cited.

Potential Gross Income	48,336 sf	@ $1.50 /sf/mo	$870,048
Less Vacancy & Collection Losses		@ 5%	$43,502
Effective Gross Income			$826,546
Less Expenses		@ 5%	$41,327
Net Operating Income			$785,219
Capitalized		@ 5.25%	$14,956,552
Capitalized Value			**$14,956,552**

Market Value Conclusion Based on Capitalized Income Potential: $14,956,000

State of California

BOARD OF EQUALIZATION

PROPERTY TAX RULES

Division 1. State Board of Equalization-Property Tax
Chapter 1. Valuation Principles and Procedures

Rule 4. The Comparative Sales Approach to Value.

Authority: Section 15606, Government Code.
Reference: Sections 110, 110.1, 110.5 and 401, Revenue and Taxation Code; and Article XIII A, Sections 1 and 2, California Constitution.

When reliable market data are available with respect to a given real property, the preferred method of valuation is by reference to sales prices. In using sales prices of the appraisal subject or of comparable properties to value a property, the assessor shall:

(a) Convert a noncash sale price to its cash equivalent by estimating the value in cash of any tangible or intangible property other than cash which the seller accepted in full or partial payment for the subject property and adding it to the cash portion of the sale price and by deducting from the nominal sale price any amount which the seller paid in lieu of interest to a lender who supplied the grantee with part or all of the purchase money.

(b) When appraising an unencumbered-fee interest, (1) convert the sale price of a property encumbered with a debt to which the property remained subject to its unencumbered-fee price equivalent by adding to the sale price of the seller's equity the price for which it is estimated that such debt could have been sold under value-indicative conditions at the time the sale price was negotiated and (2) convert the sale price of a property encumbered with a lease to which the property remained subject to its unencumbered-fee price equivalent by deducting from the sale price of the seller's equity the amount by which it is estimated that the lease enhanced that price or adding to the price of the seller's equity the amount by which it is estimated that the lease depressed that price.

(c) Convert a sale to the valuation date of the subject property by adjusting it for any change in price level of this type of property that has occurred between the time the sale price was negotiated and the valuation date of the subject property.

(d) Make such allowances as he deems appropriate for differences between a comparable property at the time of sale and the subject property on the valuation date, in physical attributes of the properties, location of the properties, legally enforceable restrictions on the properties' use, and the income and amenities which the properties are expected to produce. When the appraisal subject is land and the comparable property is land of smaller dimensions, and it is assumed that the subject property would be divided into comparable smaller parcels by a purchaser, the assessor shall allow for the cost of subdivision, for the area required for streets and alleys, for selling expenses, for normal profit, and for interest charges during the period over which it is anticipated that the smaller properties will be marketed.

History: Adopted June 21, 1967, effective July 23, 1967.
Amended July 27, 1982, effective December 30, 1982.

Conclusion Notes

- California Property Tax Rule 4 establishes the comparative sales method as the preferred valuation approach when reliable data exists.
- The subject property legitimately transacted at the higher end of the market range when it sold in March of 2022.
- Value assessments should reflect a property's specific placement within the market range rather than a mathematical median.
- The Assessor does not increase property values at the lower end of the market range to the median, and should not reduce the subject's enrolled value from the higher end of the range to the median for the January 1, 2025, lien date.
- Enrolling the subject at $325/sq. ft. appropriately places the subject value near the upper range of comparable sales.
